

Pest Spray Activity 2

Aphids, Caterpillars and Other Insects

Equipment:

- soap flakes
- water (warm if possible)
- bucket
- wooden spoon
- funnel
- spray bottle
- label
- pen

What to do:

- Add two tablespoons of soap flakes to one litre of water in a bucket and stir thoroughly until completely dissolved (this is quicker in warm water).
- There is no need to dilute this further, just spray it on as is.
- Pour through funnel into spray bottles.
- Make a label and stick to spray bottle with name, purpose, date and instructions.
